

# REVISED LISTING OF AMATEUR-BUILT AIRCRAFT KITS

Updated on: February 12, 2018

The following is a revised listing of aircraft kits that have been evaluated and found eligible in meeting the “major portion” requirement of Title 14, Code of Federal Regulations (14 CFR) Part 21, Certification Procedures for Products and Parts, specifically, § 21.191(g).

- This listing is only representative of those kits where the kit manufacturer or distributor requested an evaluation by the Federal Aviation Administration (FAA) for eligibility and **should not** be construed as meaning the kit(s) are FAA “certified,” “certificated,” or “approved.”
- There are other aircraft kits that may allow a builder to meet the “major portion” requirement of § 21.191(g), but those manufacturers or distributors have not requested an FAA evaluation.
- The placement of an aircraft kit on this list is **not** a prerequisite for airworthiness certification.
- The primary purpose of this listing is to assist FAA Inspectors/Designees and other interested individuals by eliminating the duplication of evaluations for “major portion” determination when the aircraft is presented for airworthiness certification as an “Amateur-Built Experimental.”
- Kit manufacturers or distributors whose status is unknown are identified with a question (?) mark and their address has been deleted.

## Additional Information and Guidance

- Advisory Circular (AC) 20-27G, Certification and Operation of Amateur-Built Aircraft.
- FAA Order 8130.35B, Amateur-Built Aircraft National Kit Evaluation Team
- Contact your local FAA Flight Standards District Office (FSDO) or Manufacturing Inspection District Office (MIDO).

Those publications and other information pertaining to amateur-built experimental aircraft are available online at <http://www.faa.gov/aircraft>.

## REVISED LISTING OF AMATEUR-BUILT AIRCRAFT KITS

Assembly Manual and Parts List  
Genesis Instructions Manual Kit 1,  
2, and 3 Original release, date 8/28/02

\*The Genesis kit is also available as the "Revelation" kit. The "Revelation" kit is identical to the Genesis kit with the exception of the doors and left and right cabin enclosures which are not installed, allowing for an "open air" cockpit. The assembly and instruction manual is the same for both kits.
